OVERALL CURRENT MATURITY

2.37

Level 2: Isolated or occasional practice

The process is used only in a few isolated projects or on an occasional basis. Practice depends mainly on individual teams, project needs, or local champions, with no repeatable approach or consistent framework.

OVERALL TARGET MATURITY

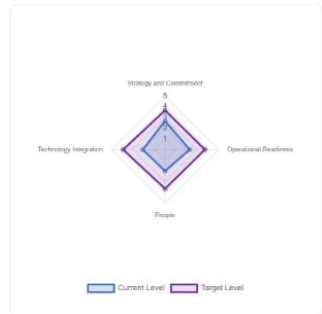

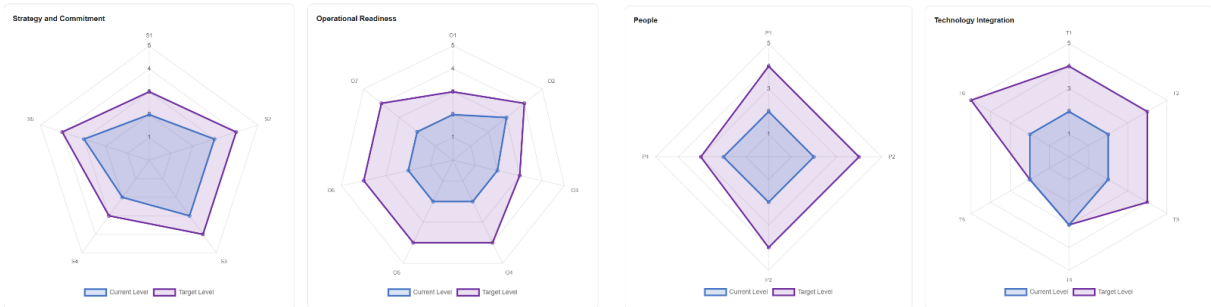

3.73

Level 3: Repeated but locally inconsistent practice

The process is used in some projects or teams and has become a recognizable practice. However, it remains locally defined, inconsistently documented, and not governed by a consistent organization-wide framework.

	Current Level	Target Level
Strategy and Commitment	2.67 Level 2: Isolated or occasional practice	3.67 Level 3: Repeated but locally inconsistent practice
Operational Process	2.30 Level 2: Isolated or occasional practice	3.72 Level 3: Repeated but locally inconsistent practice
People	2.00 Level 2: Isolated or occasional practice	3.66 Level 3: Repeated but locally inconsistent practice
